Since 1989 European Economic Interest Groupings (EEIG) can be set up in the European Union (since 1996 also in the European Economic Area of the EFTA Member States Norway, Iceland and Liechtenstein) – as a rather unique legal form of cooperation. Since then, around 2.300 EEIG have been formed, a very interesting task for Managing Directors, accountants, tax experts, lawyers, chambers of commerce and other advisory bodies like advisors themselves. Members include all kinds of persons and companies – from small to big, from services to industry, from public bodies to associations, from freelancer to multinational corporation. Group activities can be outsourced, research is made easier for universities, and commercial activities across the borders can be improved. Members from third countries (e.g. Switzerland, Russia, USA, West Balkan etc.) can take part as associates.

Although the EEIG is, in general, not too complicated at first glance, there are some legal points one has first to understand. This workshop is scheduled for EEIG Managing Directors, accountants, financial officers, members, lawyers, tax advisors, scientists or students who – in a larger context – take care of the financial aspects in the life of an EEIG. And financial circumstances can vary from one EEIG to the other – there is no other legal form in the EU which is more individualistic than an EEIG.

The European EEIG Information Centre, an ad-hoc agglomeration of know-how, working now mostly in virtual form and this throughout Europe (and often for new legislation outside of the EU) exists now for 20 years, has set up more than 300 EEIG and offers topical, useful and reliable information on them. The numbers of EEIG is rising constantly, and around 15.000 members may be integrated in this kind of structure.

If you are already involved in an EEIG or still in the „enlightened interest“ phase, or if you are a legal or tax advisor, or a present or future financial officer of an EEIG – this will be the workshop for you. Financial solutions and how to master them are pivotal for every company, including an EEIG. They have their own problems which should be known and discussed. In the framework of a workshop – not of a conference – to cover interactively also questions from the participants. The conference speaker will be at disposition also for individual questions at the end of the event. It will be spoken in English, but questions can also be taken in German, French or Italian.

The conference speaker

Hans-Jürgen Zahorka, Assessor jur., heads the European EEIG Information Centre (www.ewiv.eu) since its launch in the beginning of the 1990s and is one of the very few Europeans who have an overview on this legal form; he often teaches in open and closed workshops about the European Economic Interest Grouping. As a former Member of European Parliament he was an observer of the EEIG from the very beginning and may be among the best informed Europeans on this legal form. He has accompanied the start-up and difficult consulting phases of many hundreds of EEIG all over the EU. Today he is mainly active as Government Advisor for the CIS countries, Eastern Europe, the Balkan, but also Caribbean and African ACP Member States, or to the countries in the South of the Mediterranean on behalf the EU, UNDP, the World Bank etc. The lawyer, who has for many years also been a (German) solicitor/barrister (in various EU Member States) worked also eight years for a foreign chamber and has been for many years a Senior Lecturer of various universities abroad and in Germany. Since 2003 with LIBERTAS – European Institute, a think-tank on European and international governance and economy, www.libertas-institut.eu. The EU law expert (also part of TEAM EUROPE of the EU Commission, an independent experts' network for conferences, lectures etc.) is also Chief Editor of "European Union Foreign Affairs Journal" (www.eufaj.eu) and author and editor of the "EWIV-Handbuch" (EEIG Handbook), at first appearing in German towards the end of 2011 as loose-leaf edition.
